THE RIGHT MACHINE FOR THE RIGHT JOB

Configure your Euroloader to match the work you do. With the right attachments, the machine stays productive all year round – from material handling and snow clearance to farmyard work and contracting.

AGRICULTURE

Feed, bedding, slurry, bales, pallets and daily farm logistics.

PROPERTY & GROUNDS

Snow clearance, gritting, material movement, maintenance and grounds keeping.

CONTRACTING

Levelling, loading, transport and site work in construction and industry.

WINTER OPERATIONS

Studded tyres, a heated cab and snow attachments keep the machine productive all year long.

PALLET FORKS

For efficient and safe handling of pallets and materials.

GRADING BUCKET

For levelling, backfilling and handling soil, gravel and snow.

SNOW EQUIPMENT

For snow clearance and gritting – ready for Nordic conditions.
